Parramatta Fishways Interpretive Signage

Dear John

A brief letter of thanks to Central Signs for your team's efforts in fabricating and installing the Parramatta Fishways Interpretive Signage.

We much appreciate your endeavour in delivering a very high quality signage installation using a diverse range of materials and techniques to great effect. Likewise we appreciate your willingness to work in with a large number of consultants, contractors and client representatives over a much longer time frame than originally intended.

The ever changing installation conditions on and around the Parramatta River were particularly demanding and I note that you and the Central Signs team saw this as an interesting challenge rather than an insurmountable obstacle - did you really install the Fish Ribbons from a dingy?

You, John, have been responsive throughout the project, and have been willing to resolve and follow up any problems very promptly.

Central Signs have achieved great results on this project and it has been a pleasure working with you.

Sincerely

Peter Tonkin
