**RE: Entrance Feature Signage**

To Whom It May Concern:

Central signs were contracted to produce the signage for the walls on the entrance features to the Maitland CBD.

The project was completed on budget and the final product is excellent.

There were a number of minor problems to be overcome during the production of a one off project such as this and Central Signs were always helpful , cooperative and interactive with the solutions .

The final product was of a very high standard , see attached Photos .

I would have no hesitation in using this company for any similar projects in the future and no reservation about recommending them for any similar projects.

Yours Faithfully,

A handwritten signature in black ink, appearing to read "Warick Schroder".
