12 September 2001

Dear Rodger,

The Royal Botanic Gardens Sydney would like to commend you and the Central Signs team on the effective and timely construction of the 50 metre curvilinear storyline sign for the Cadi Jam Ora: First Encounters Garden display.

Central Signs took a challenging brief and came up with a unique, intelligent and practical solution that met our expectations and needs. The fibreglass framework looks streamlined in the landscape and the overall appearance of the Versatec graphics is quite stunning.

Please pass on our appreciation and congratulations to everyone from Central Signs who contributed their knowledge and expertise to this project. They were friendly and professional at all times and were conscientious about the quality of the outcome of the structure. Thank you.

Regards,

Janelle Hatherly  
Community Education Manager &  
Project Manager for Cadi Jam Ora: First Encounters Garden Display
